SUMMARY

Software Engineer at HCLTech building enterprise web platforms with AEM, Java, C# and .NET for global clients. A two-time national gold medalist in martial arts, a disciplined market trader and a builder who believes in consistency over noise.

EXPERIENCE

HCLTech — Software Engineer Dec 2025 – Present

- Developing web solutions using AEM, Java, C# and .NET technologies for enterprise clients.
- Working on Clifford Chance, a major global law firm's enterprise AEM platform.
- Applying SDLC best practices and building scalable, maintainable applications.

HCLTech — Web Developer Intern (TechBee) Jul 2025 – Dec 2025

- AEM and Java development as part of the TechBee early career program.
- Built frontend components using HTML, HTML5 and modern tooling.

HCLTech — Technical Apprentice (TechBee) Nov 2024 – Jul 2025

- Foundation training in .NET Framework and C# as part of the TechBee program.
- Built a strong understanding of enterprise development processes and team workflows.

CoinDCX — Independent Crypto Trader (Remote) Aug 2025 – Present

- Trading cryptocurrency markets using technical analysis and liquidity concepts, with strict risk management.
- Studying institutional market behavior, order flow and market structure.

LeadsGuru — Affiliate Marketer (Remote) Jan 2023 – Apr 2024

- Promoted digital products through performance-based affiliate marketing and sales funnel optimization.

PROJECTS

Clifford Chance — Enterprise AEM 2025 – Present

AEM 6.5, Java, Sling Models, OSGi, HTL, Maven. Built several AEM components (including an accordion), moved component work from CRXDE to VS Code, resolved AEM 6.5 / Java 21 conflicts and ran sanity and regression testing, delivering on time.

Wolf Liquidity System 2026

Telegram-integrated trading signal bot scanning crypto (Binance API) and forex/gold (Twelve Data API) for 7 institutional SMC / ICT scenarios. Signals include entry, stop loss and four take-profit levels (1:5 to 1:50 risk-to-reward), plus Pine Script v5 TradingView indicators.

Daily Discipline Tracker 2026

Java Spring Boot backend with a Next.js / React front end animated with GSAP. Completed five build stages independently; adding Three.js.

ACHIEVEMENTS

- **2× National Gold Medalist** — Kung Fu, Dragon Academy of Martial Arts India (six years of competitive training).
- **All India Rank 235** — Common Internship Test, Internship Studio (66 marks).
- **Perfect score** — NISM / SEBI Investor Awareness Test (100%); National Financial Literacy Quiz 2025 (100%).
- **C# Advanced Level Guru (Gold Badge)** — TechGig, plus Silver badges at Intermediate and Beginner level.

SKILLS

Languages: C#, Java, SQL, JavaScript
AEM: Adobe Experience Manager 6.5, Sling Models, OSGi Services, HTL, Maven
Web & Backend: .NET / ASP.NET, REST APIs, Spring Boot, React / Next.js, HTML5 / CSS
Tools & Process: Git / GitHub, Visual Studio, VS Code, SDLC
AI & Cloud: Generative AI, Prompt Engineering, Microsoft Azure AI, LLMs
Markets: Technical analysis, liquidity & FVG (SMC / ICT), risk management, forex / crypto, Pine Script, Blockchain / Ethereum

EDUCATION

B.Sc. (Honours) Computer Science — Shiv Nadar University (Institution of Eminence) Mar 2026 – 2030

Class 12th, Science (PCM + Computer) — Rani Laxmi Bai Memorial School 2024

Class 10th — Rani Laxmi Bai Memorial School 2022

CERTIFICATIONS (53)

Google: Build with Gemini, Track 2: Platform IT Developer (Oct 2026)

OpenAI: OpenAI Technical Practitioner (Aug 2026)

HCLTech: L3 Dev Prompt Engineer; GEN AI for Tester; Gen AI for .NET Developer (L3); Gen AI for Java Developer (L3); AI Software Engineer (L3); Gen AI for DevOps SRE (L3); AI & Gen AI Fundamentals; AI Force for SDLC; Generative AI Concepts; AI for Business Leaders

Skillsoft: AI-powered Cloud Platforms for DevOps; Deep Learning and Neural Networks; Artificial Intelligence & Machine Learning; Harnessing the Disruption of Generative AI; Leveraging Generative AI for Business; Generative AI & Its Impact to Business

TechGig: C# Advanced Level Guru (Gold); C# Intermediate & Beginner (Silver); C# .NET

IBM: SQL and Relational Databases 101; Istio & IBM Cloud Kubernetes Service; Prompt Engineering for Everyone; Unleashing RL for Trading (Cognitive Class)

Microsoft / LinkedIn: Microsoft Azure AI Essentials; Career Essentials in Generative AI; Microsoft 365 Copilot & Business Chat

European Open University: Software Development Life Cycle; Certified Ethical Hacker (CEH); Ethereum Blockchain Application; Android Expert; Forex Trading Master; Forex Trading; Bitcoin; Business Analyst; Entrepreneurship Skills Management; E-Commerce Developer; Marketing Management

Job simulations: JPMorgan Chase (Software Engineering, Investment Banking); Citi (Markets Quantitative Analysis, Sales & Trading, Investment Banking); Bank of America (Global Markets Sales & Trading); Goldman Sachs (Operations); Tata Group (GenAI Powered Data Analytics)

Other: Basics of Python (Cambridge); Cyber Security Incident Response, CPD Certified (Alison); NISM / SEBI Certifications; National Financial Literacy Quiz; Digital Marketing (HubSpot Academy); Data Science Workshop (Mindenious)
